Teagasc Higher Education Partnerships

Teagasc has had a longstanding and substantial involvement in higher education provision. At Teagasc, our unique role as a research, knowledge transfer and education provider brings an added dimension to higher agricultural education in Ireland.

Teagasc is an education partner of:

- **Munster Technological University**
- **Dundalk Institute of Technology**
- **Galway-Mayo Institute of Technology**
- **Limerick Institute of Technology**
- **Waterford Institute of Technology**
- **University College Dublin**
- **University College Cork**

Teagasc courses are creative, diverse and lots of fun. You will meet and work with students from similar backgrounds and develop friendships and networks that will last long after graduation.

All Teagasc Level 5 and Level 6 major awards are validated by [Quality and Qualifications Ireland \(QQI\)](#) and lead to internationally recognised course awards.

Reasons to train with Teagasc

TEAGASC TRAINING NETWORKS

Teagasc education programmes are delivered through our network of seven colleges (four Teagasc colleges and three linked private colleges) and also through Teagasc's 12 advisory regions.

These seven colleges are:

- **Ballyhaise Agricultural College, Ballyhaise, Co Cavan**
- **Clonakilty Agricultural College, Darrara, Clonakilty, Co Cork**
- **College of Horticulture, National Botanic Gardens, Glasnevin, Dublin 9**
- **Gurteen College, Ballingarry, Roscrea, Co Tipperary**
- **Kildalton Agricultural and Horticultural College, Piltown, Co Kilkenny**
- **Mountbellew Agricultural College, Mountbellew, Co Galway**
- **Salesian Agricultural College, Pallaskenry, Co Limerick**

COLLEGE FARMS

All of our colleges have:

- substantial land and physical resources at their disposal for practical instruction and demonstration of commercial farming
- an extensive range of farm machinery, equipment and modern workshops for practical teaching purposes. We have specialised resources, gardens and facilities at Teagasc horticultural colleges to enable hands-on learning. Likewise, the equine courses we run at Teagasc Kildalton College have the resources to allow students to work with horses on a daily basis. Our forestry teaching resources at Teagasc Ballyhaise College include state-of-the-art simulator facilities.

We run a number of Teagasc research projects at Colleges in conjunction with Teagasc research programmes.

PRACTICAL LEARNING HOSTS

At Teagasc, we have over 1,000 active host farms and host units that provide on-site practical learning periods (placement) for Teagasc learners.

THEORY AND LIVE DEMONSTRATIONS

You will get to participate – in both theory and live demonstrations – on practical skills. This gives you a chance to see skills done correctly, and try it out for yourself in a safe environment.
