<b>Average</b>		<b>28.14</b>	<b>3.97</b>	<b>3.54</b>	<b>2.21</b>	<b>97</b>

**Monitor Farm Update from Joe Carroll: I am alright for grass at the moment but like everyone else I could do with an increase in temperature and some rain. I am getting a bit more out of the paddocks than I would have allocated for. The dry matter of the grass is higher than it would typically be at this time of year. I started breeding this week and I am happy so far with the activity of the cows.**
