1. Introduction

This document outlines the Terms and Conditions attaching the 2022 Scheme of Investment Aid for the Development of the Commercial Horticulture Sector.

1.1 Scheme Overview

1.1 This scheme is intended to assist in the development of the horticulture sector, including beekeeping, by grant aiding capital investments in specialised plant and equipment including renewable energy, as well as technology adoption specific to commercial horticulture production.

This scheme falls under State Aid in accordance with EU Guidelines for State Aid in the agricultural and forestry sector and in rural areas 2014 to 2020.

1.2 Scheme Objectives

The scheme aims to facilitate environmentally friendly practices, promote the diversification of on-farm activities, improve the quality of products and improve working conditions.

1.3 Who is Eligible?

The scheme is aimed at those engaging in commercial horticultural production and/or beekeeping. Non-production investments, which are directly associated with primary production, may also be considered.

Applicants other than companies or corporate bodies must be over 18 years of age.

1.4 Scale of investments

The minimum investment which will be considered for grant aid is €10,000 excluding VAT, except in the case of beekeeping where a minimum investment of €2,000 excluding VAT applies.

The upper cumulative limit, per applicant, for investments under the scheme over the period 2020-2027 is €5m.

Aid for each investment will be decided based on the availability of funds and the ongoing priorities for each sector within the industry as well as the quality and scale of the proposals. Account will also be taken of whether grants awarded to the applicant under previous rounds of this scheme were drawn down in full.

In some cases, only part of an investment may be approved for aid.

1.5 Justification for Granting Aid

Aid for investment will, at all times, be subject to the condition that, in the opinion of the Department, the investment is justified. However, the approval for, or payment of aid, does not imply any endorsement by the Department of a project's safety, technical feasibility and/or economic viability.

1.6 Competitiveness of Applications

Projects will be assessed for aid on a priority basis and the fact that a project is aided does not create entitlement for similar projects in this or any future round of the scheme. Priorities may change with time or circumstances.

1.7 Rate of Grant

Aid will be payable at the maximum rate of 40% (or at a maximum rate of 50% in the case of young farmers) on the accepted net cost (**excluding VAT, discounts and allowances**) of **capital** investments approved and completed to the satisfaction of the Department. The amount on which the grant is calculated will not, however, exceed the actual net expenditure incurred (excl. VAT, discounts and allowances), and paid for by the applicant. **The Scheme is 100% funded by the Irish Government.**

To qualify for **the higher rate of grant aid on the basis of being a young farmer**, the applicant must be over 18 years of age, and under 35 years of age on the closing date for receipt of valid applications by the Department. Each such applicant must submit an original birth certificate with his/her application and must be in a position to demonstrate, by the date of application for payment of aid, that he or she is in control of financial management of the enterprise, for which the grant aid is sought.

In the case of applications made by people operating in partnership or where more than one person has joint interest in the business, the higher rate of aid will only be payable where all parties are under 35 years on the closing date for receipt of a valid application.

A company or corporate body will not qualify for the higher rate of aid.

1.8 Deadlines for receipt of applications, completion of investments and submission of claims for payment of grant aid

The deadline for receipt of completed applications under the scheme is 5pm on Friday 17th December 2021. Applications will be accepted prior to the closing date for receipt of applications. **Emailed Applications WILL NOT be accepted.** **Only fully completed Hard Copies of Application Forms will be considered.**

As the funds available under the Scheme of Investment Aid for the Development of the Commercial Horticulture Sector are limited, investments will be in competition for grant aid, and therefore not all eligible investments may receive an offer of funding.

Approved investments must be completed and the claim for payment submitted to the Department not later than **Friday 30th September 2022**. However, in duly justified limited cases, funding may be approved for investments that will be completed and claimed prior to Friday 29/09/23. Payment claims will be accepted prior to the closing date for receipt of claims.

Application forms may be obtained from www.agriculture.gov.ie or by emailing HorticultureGrants@agriculture.gov.ie or from the address set out below.

Completed applications and all supporting documentation must be submitted in hard copy to:

1.9 Procedures

1.10 Unsuccessful Projects

Where eligible projects have not been approved for grant aid and have not commenced, applicants may re-apply for consideration in the event of a future round of applications under the scheme, subject to the terms and conditions of the scheme at that time. 4.1 Eligible Investments

The scheme will be confined to new investments specifically related to horticulture.

In cases of investment relating to renewable energy aid will not be granted for the production of biofuels. Investment aid that is granted for renewable energy production for either thermal energy or electricity is limited to serving the energy needs of the applicant. Funding for biomass boilers is subject to these same conditions. For each investment that results in the generation of electrical energy the producer must retain evidence that the quantity of electricity which the investment will generate will be related to the horticultural enterprise or needs and, in principle, should not exceed

the total average consumption of the horticultural enterprise on which it has been placed. Records should be kept of actual electrical energy generated for a period of five years. In addition, biomass boilers for the generation of electrical energy will not be funded unless a minimum percentage of heat energy is utilised, this percentage will be determined based on the specifications of the planned investment.

In cases of investment relating to irrigation for any new or upgrade of existing irrigation equipment that is funded, water meters must be installed to monitor the amount of water usage. Water consumption must be monitored by the applicant and a log of this must be retained for a period of five years.

An investment in an improvement to an existing irrigation installation or element of irrigation infrastructure is eligible only if it is assessed before aid is awarded as offering potential water savings of a minimum of between 5% and 25% according to the technical parameters of the existing installations or infrastructure, a technical report must justify this claim and be submitted with your application.

Applicants must declare where any relationship exists between the applicant and the quoting company/supplier. The nature of this relationship must be declared fully on the application form.

4.2 Commercial Viability of Proposed Investment

The horticultural enterprise must be shown to be viable on a commercial scale. To enable viability to be assessed, investment proposals must be supported by a satisfactory business plan covering a minimum of two years and the most recent set of accounts.

Applications must contain a comprehensive profile of the current and proposed enterprises, outlets, employment etc. Each project will be assessed on a case-by-case basis, taking into account the business plan, the latest set of accounts and the project profile submitted with the application.

4.3 Financing of Approved Items

Leasing Agreements and Hire Purchase Agreements will be limited to a maximum period of 5 years.

4.4 Aid from Other Sources

Each applicant must give an undertaking that he/she has not sought/received, directly or indirectly, other National or EU funding for investments submitted for aid under this scheme. State Aid rules apply.

If any contribution towards the cost of approved works has been or may be made from public funds, other than under this scheme, the amount of aid under the scheme may, where the Department so determines, be reduced accordingly.

Investments which the Department considers eligible for aid under the Scheme of Aid for Producer Organisations in the Fruit and Vegetables Sector will not be grant aided under this scheme if the applicant is a member of a Producer Organisation.

Investments which are eligible for consideration for aid under the Organic Capital Investment Scheme will not be grant aided under this scheme if the applicant is a licensed organic operator registered with an approved organic certification body. However investments in horticulture specific equipment with specifications exceeding those set for the Organic Capital Investment Scheme will be considered by the Department.

Investments which are eligible for consideration for aid under the Tillage Capital Investment Scheme will not be grant aided under this scheme. However investments in horticulture specific equipment with specifications exceeding those set for the Tillage Capital Investment Scheme will be considered by the Department.

An applicant must notify the Department if he or she has raised funds under the Employment and Investment Incentive Scheme (EII) or Startup Refunds for Entrepreneurs (SURE) as operated by the Irish Revenue Commissioners. If any of these situations apply, the applicant must provide details of the application, the amount(s) raised since 1 January 2018, and the total amount received to date since then. Where the first share issue of funds under any of these schemes took place since 01/01/2018 the grant aid payable under this scheme may be reduced by 50% where the applicant is located in a non-assisted area and by 20% where the applicant is located in an assisted area. If the amount of the reduction arising from this calculation is greater than the value of the EII or SURE investment received, then the reduction in aid under this scheme will not exceed the amount of the EII or SURE investments.

4.5 Commencement of Work

Work on a project must not commence until after the respective letter of approval has been issued by the Department.

Items invoiced, delivered or purchased, or payments made before issue of the approval letter by the Department, are not eligible for grant aid under this scheme.

The following preparatory measures will not be deemed to constitute commencement of work and may be undertaken whenever appropriate:

- Obtaining planning permission.

- Preparatory/feasibility studies specifically carried out for the proposed investment by, for instance, a consultant or a registered architect.
- Site clearance and fencing.

No aid will be paid for projects which commence before the date of issue of the respective letter of approval by the Department.

In addition, the grant of planning permission must not expire for at least six months after the closing date for receipt of applications under the Scheme.

If the applicant believes the proposed investment in a building(s) or fixed structure(s) (including polytunnels) does not require planning permission an original written confirmation of exemption on headed paper signed by a Chartered Engineer or a Registered Architect or written confirmation from the relevant Local Authority of

exemption from planning permission requirements must be submitted at the time of application.

If planning permission is required for a proposed investment the grant of planning permission and a copy of the full set of drawings on which planning permission was obtained must be submitted with the application under the Scheme. The drawings submitted must all have been stamped as received by the Local Authority.

If the derogation requested is not granted the applicant must be an approved participant in the appropriate Bord Bia Quality Assurance Programme(s), or a recognised equivalent, on the date of application for payment of grant aid.

- c) may be refused grant aid where the Department is of the opinion that the works proposed to be carried out would cause damage to the environment – in particular to environmentally sensitive areas or to a structure or area of historical or archaeological importance.

The applicant must provide details of measures in place to protect the environment from any possible increased pressure resulting from the proposed investments. An environmental impact statement (EIA) may be requested where the Department of Agriculture, Food and the Marine is of the opinion that the works proposed to be carried out would increase pressure on the environment, in particular to environmentally sensitive areas or to a structure or area of historical or archaeological importance.

The Department shall not accept any responsibility for errors or omissions contained in applications for grant aid or any required supporting documentation.

It shall be the responsibility of the applicant to familiarise him/herself with the scheme Terms and Conditions, the specifications and any amendments thereof and with the consequences for breaches of the scheme.

The approval or payment of aid under the scheme does not imply acceptance by the Minister of any responsibility as regards the obligations undertaken by the participants.

10.2 Review of Financial Aids

The Department reserves the right to vary, where occasion so demands, the amount of financial aid specified in the scheme subject, at all times, to the provision of any relevant European Union legislation.

10.3 Conditions Relating to Approval

Every approval of development works and purchases under this scheme shall be subject to all conditions laid down by the Department being complied with, in full, by the applicant.

The approval of aid may be withdrawn if the applicant fails to abide by the terms of the scheme or in the event of any material change in the circumstances of the applicant or of the farm business or in any other respect, which would be in conflict with the Terms and Conditions of the scheme. In such event:

- a) All or such portion of aid given or to be given, shall be reimbursed or withheld;
and
- b) No grant aid will be payable in respect of any works completed to date

Approval for a change in the scheme beneficiary's details must be requested in writing from the Department if, following the issuing of approval under the scheme, there is a change in the control of the business or holding approved for grant aid, for example a change from a natural person to a legal person, change from a natural person to a different natural person, the dissolution of a partnership or the winding up of a company. Grant aid will not be paid to the new beneficiary until and unless the change in the beneficiary's details has been approved by Department.

An application will not be accepted or approval may be withdrawn if, in the opinion of the Minister or his officials, it is established that an applicant artificially created the conditions required to obtain grant aid with a view to obtaining an advantage contrary to the objectives of the scheme.

10.4 Force Majeure or Exceptional Circumstances

Applications for *force majeure* or exceptional circumstances shall be notified in writing by the beneficiary or his/her Approved Advisor, together with relevant evidence, to the Department using the contact details set out under Condition 1.9, within 15 working days from the date on which the beneficiary, or his/her Approved Advisor, is in a position to do so.

10.5 Charges for Visits and Services

The Department reserves the right to impose a charge for visits made, and services provided, by its officials in connection with the scheme.

10.6 Additional Conditions

The Department may, at any time, lay down additional conditions for the implementation of this scheme.
