Johnstown Castle Weekly Farm Notes- 14th November

Introduction

These management notes refer to the high stocking rate group in the Johnstown Winter Milk Experiment. This herd has:

- 100% autumn calving
- A mean calving date of October 8th. Calving commences in early September and continues until early December.
- A Holstein Friesian base with an EBI of €92. Aim is a 50:50 balance for milk and fertility
- Whole farm stocking rate of 4.0 cows/ha

The aims of the system are to produce 30,000 litres per hectare utilising >12 tonnes of forage on the grazing block

Management Issues

- Manage transition to 100% TMR allocation
- Mastitis 16% of cows treated in 1 week
- Heat Detection- Pre breeding heat detection commenced and heats recorded

Current Situation

- 95% of the herd calved
- 16% cows in TMR group treated for mastitis over the last week- significant effect on milk yield. Lower incidence in groups grazing by day.
- Farm is now closed for grazing. Highest remaining cover is 850kgDM per ha. Farm has a closing cover of 479kg/ha.
- Herd has switched to 100% indoor TMR. Details of the diet listed below.
 Concentrate ingredients are included as a coarse blend in the wagon mix. 1kg of 18% nut fed in the parlour.
- Feeding flat rate to a yield of 28 litres on a UFL basis. Offering 90% of full allowance this week as cows adjust to diet.
- Total diet is 16.3% crude protein with a PDIE/PDIN balance of 103g / 106g. Diet provide adequate protein for 34 litres @ this PDI content

Milk Yield details for 14th November

Detailed Data Update to week ending: 14-NOV-10						
Feed System						
Genotype	4.0					
Mean calving date of cows calved	30-SEP					
Farmlet size (ha)						
Farmlet stocking rate (cows/ha)						
Production Data This Week						
Supplementation (kg/cow/day)	1.0					
Milk Yield (kg/cow/day)	26.6					
Milk Solids (kg/cow/day)	1.98					
Fat Composition (%)	4.19					
Protein Composition (%)	3.25					
Lactose Composition (%)	4.68					
Body Weight (kg)	525					
Body Condition Score						
Cumulative Production to date						
Days in Milk (days)	54					
Supplement fed (kg/cow)	110					
Milk Yield (kg/cow)	1190					
Milk Solids (kg/cow)	87					
Milk Solids (kg/ha)						
Fat Composition (%)	4.01					
Protein Composition (%)	3.29					
Lactose Composition (%)	4.56
